IEEE 2024 International Conference on Digital Health (ICDH)

at the **2024 IEEE WORLD CONGRESS ON SERVICES**

<https://icdh.conferences.computer.org/2024/>

IEEE International Conference on Digital Health (ICDH) is a prime international forum for both researchers and industry practitioners to exchange the latest fundamental advances in the state of the art and practice of digital health technologies, emerging research topics, and the future of digital health. ICDH aims to bring together leading researchers, community leaders and visionaries from academia and industry, end-users, and healthcare professionals, in the area of digital health to share their research, practical experience, and visions of the future of sustainable health and social care transformations. Significant opportunities of research and development of the digital health ecosystem have been leading to new tools, techniques, analysis and automation of health care delivery models seeking improved outcomes for all related stakeholders including the patients and the health providers.

ICDH 2024 is focusing on the groundbreaking realm of Generative AI, including advancements in chatbots, Large Language Models (LLMs), and AI-driven image generation, and their transformative impacts on digital health. **Please visit the website for a detailed list of topics of interest.**

2024 ICDH General Chairs

Sheikh Iqbal Ahamed, Marquette University
Graziano Pravadelli, University of Verona
Hossain Shahriar, University of West Florida

2024 ICDH Program Chairs

Nicola Bombieri, University of Verona
Bo Wen, IBM Research, Yorktown
Haihua Xie, Beijing Institute of Mathematical Sciences and Applications

Authors are invited to prepare early and submit original papers to any of these conferences at www.easychair.org. All submitted manuscripts will be peer-reviewed by at least three reviewers. Accepted and presented papers will appear in the conference proceedings published by the IEEE Computer Society Press. The use of content generated by artificial intelligence (AI) in an article (including but not limited to text, figures, images, and code) shall be disclosed in the acknowledgments section of any article submitted to an IEEE publication. The AI system used shall be identified, and specific sections of the article that use AI-generated content shall be identified and accompanied by a brief explanation regarding the level at which the AI system was used to generate the content.

IMPORTANT DATES - EASYCHAIR

UPDATED:

Due for final submission revision - new or revised papers

April 7, 2024

Acceptance notification
